SMART Project

We are writing to express our appreciation about the work performed by ASM during the recent European Commission-funded SMART project on strategic alliances.

We were most impressed by the quality and timeliness of your work and of the professionalism shown by the ASM personnel assigned to the project, in particular Maria Góreczna, Katarzyna Swiezawska and Dominika Stelmachowicz-Pawlyza.

We very much look forward to continuing our relationship to commercialise SMART in Poland and to working together on future projects.

Best regards,

Iain Bitran
Chief Technology Officer
